

Polymer Systems Technology Ltd.'s Environmental Policy.

The Senior Management Team at Polymer Systems Technology Ltd. believes that every person and every business have the responsibility of protecting the local and global environment. As such we endeavour to carry out all Polymer Systems Technology Ltd.'s commercial activities in the most sustainable way possible.

We have developed and maintain a comprehensive Environmental Management System in line with the latest ISO 14001 standard and this ensure our compliance with all applicable legislation, codes of practice and any other standard to which we subscribe.

Here at Polymer Systems Technology Ltd., we strive to adopt the highest environmental standards in all areas of our operation and meeting all relevant legislation, through:

- The consideration of the environmental issues in all business strategies and initiatives.
- Prevention of pollution, reduction of waste and minimisation of resource consumption.
- Education of employees in how to carry out tasks in an environmentally responsible manner.
- The setting and monitoring of objectives and key performance indicators to ensure continual improvement of our environmental management system and to enhance our environmental performance.
- The purchase of sustainable products wherever feasible.
- The reduction in risk from environmental, health and safety hazards for employees and others close to our operations.

Polymer Systems Technology Ltd. has committed to; continually improve its environmental performance, maintain its ISO 14001 Certification with an Internationally recognised accredited notified body, carry out annual reviews of this environmental policy, communicate it to all employees, contractors and to make it available to the public through selected media platforms.
